

## To Be an Airline Pilot

If your dream is to be an airline pilot, or you would like to know what it takes, this book reflects the experiences, thoughts, and findings of a trainee pilot throughout the journey that took him into the right-hand seat of a jet airliner. The book covers everything that you need to consider before and during the training process, including where to train and how to raise funds. The flying course structure and ground school subjects are detailed, and many sample exam questions are included to give a flavor of what lies ahead. The book also looks behind the scenes at life on a training campus and considers all important practicalities before going on to look at how to find that dream job.

Portland's Solar Equipment Installation Experts Referral SOLAR Save Money Help the Environment Gain Power Independence Learn About the Benefits of Solar Panels

"I had solar panels installed on my roof in July. Rob from Referral solar is very experienced and professional. He gave me recommendations based on my home and helped me choose from the different payment options based on my budget."

Judy C.

"I'm using zero net electricity and that feels wonderful. I've had the system up and running for two months now, and the results are better than I expected!"

Daniel M.

"I would highly recommend Referral Solar Portland to everyone! They installed solar panels at my home about a year ago. We've had rain since the install and no leaks to report. The energy we've been generating is consistent and clean. I couldn't be more pleased."

Martin C.
