

Beyond Earth: Our Path to a New Home in the Planets

From a leading planetary scientist and an award-winning science writer: a propulsive account of the developments and initiatives that have transformed the dream of space colonization into something that may well be achievable. We are at the cusp of a golden age in space science, as increasingly more entrepreneurs Elon Musk, Richard Branson, Jeff Bezos are seduced by the commercial potential of human access to space. But *Beyond Earth* does not offer another wide-eyed technology fantasy: instead, it is grounded not only in the human capacity for invention and the appeal of adventure, but also in the bureaucratic, political, and scientific realities that present obstacles to space travel realities that have hampered NASA's efforts ever since the Challenger fiasco. In *Beyond Earth*, the authors offer groundbreaking research and argue persuasively that not Mars, but Titan, a moon of Saturn with a nitrogen atmosphere, a weather cycle, and an inexhaustible supply of cheap energy; where we will be able to fly like birds in the minimal gravitational field offers the most realistic, and thrilling, prospect of life without support from Earth. (With 8 pages of color illustrations) From the Hardcover edition.

Portland's Solar Equipment Installation Experts Referral SOLAR Save Money Help the Environment Gain Power Independence Learn About the Benefits of Solar Panels

"I had solar panels installed on my roof in July. Rob from Referral solar is very experienced and professional. He gave me recommendations based on my home and helped me choose from the different payment options based on my budget."

Judy C.

"I'm using zero net electricity and that feels wonderful. I've had the system up and running for two months now, and the

results are better than I expected!"

Daniel M.

"I would highly recommend Referral Solar Portland to everyone! They installed solar panels at my home about a year ago. We've had rain since the install and no leaks to report. The energy we've been generating is consistent and clean. I couldn't be more pleased."

Martin C.
