

# Broadcast Hysteria: Orson Welles War of the Worlds and the Art of Fake News

On the evening of October 30, 1938, radio listeners across the United States heard a startling report of a meteor strike in the New Jersey countryside. With sirens blaring in the background, announcers in the field described mysterious creatures, terrifying war machines, and thick clouds of poison gas moving toward New York City. As the invading force approached Manhattan, some listeners sat transfixed, while others ran to alert neighbors or to call the police. Some even fled their homes. But the hair-raising broadcast was not a real news bulletin—it was Orson Welles adaptation of the H. G. Wells classic *The War of the Worlds*. In *Broadcast Hysteria*, A. Brad Schwartz boldly retells the story of Welles famed radio play and its impact. Did it really spawn a wave of mass hysteria, as *The New York Times* reported? Schwartz is the first to examine the hundreds of letters sent to Orson Welles himself in the days after the broadcast, and his findings challenge the conventional wisdom. Few listeners believed an actual attack was under way. But even so, Schwartz shows that Welles broadcast became a major scandal, prompting a different kind of mass panic as Americans debated the bewitching power of the radio and the country's vulnerability in a time of crisis. When the debate was over, American broadcasting had changed for good, but not for the better. As Schwartz tells this story, we observe how an atmosphere of natural disaster and impending war permitted broadcasters to create shared live national experiences for the first time. We follow Orson Welles rise to fame and watch his manic energy and artistic genius at work in the plays hurried yet innovative production. And we trace the present-day popularity of fake news back to its source in Welles show and its many imitators. Schwartz's original research, gifted storytelling, and thoughtful analysis make *Broadcast Hysteria* a

groundbreaking new look at a crucial but little-understood episode in American history.

Portland's Solar Equipment Installation Experts Referral SOLAR Save Money Help the Environment Gain Power Independence Learn About the Benefits of Solar Panels

"I had solar panels installed on my roof in July. Rob from Referral solar is very experienced and professional. He gave me recommendations based on my home and helped me choose from the different payment options based on my budget."

Judy C.

"I'm using zero net electricity and that feels wonderful. I've had the system up and running for two months now, and the results are better than I expected!"

Daniel M.

"I would highly recommend Referral Solar Portland to everyone! They installed solar panels at my home about a year ago. We've had rain since the install and no leaks to report. The energy we've been generating is consistent and clean. I couldn't be more pleased."

Martin C.
