

The Principles Underlying Radio Communication (Classic Reprint)

The Principles Underlying Radio Communication. Prepared by the Bureau of Standards under the direction of the Training Section of the Office of the Chief Signal Officer of the Army. Acknowledgment is made of the valuable service rendered the Signal Corps by the Bureau of Standards through the work of Dr. J. H. Bellinger, physicist, Bureau of Standards, and the following men engaged with him in the writing of this book: F. W. Grover, Consulting Physicist, Bureau of Standards; Assistant Professor of Electrical Engineering, Union University. C. M. Smith, Associate Professor of Physics, Purdue University. G. F. Wittig, Assistant Professor of Electrical Engineering, Yale University. A. D. Cole, Professor of Physics, Ohio State University. L. P. Wheeler, Assistant Professor of Physics, Yale University. H. M. Royal, Professor of Mathematics, Clarkson College of Technology. In this book are presented briefly the basic facts and principles of electromagnetism and their application to radio communication. In the effort to present these topics in a simple manner for students with very little mathematical preparation, it has been necessary at times to use definitions, illustrations, and analogies which would not be used in a work prepared for more advanced students. Frequent references to standard books are given for further study, and students should be encouraged, as far as possible, to consult them. December 10, 1918. (Typographical errors above are due to OCR software and do not occur in the book.) About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology. Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings. Careful attention has been made to accurately preserve the

Portland's Solar Equipment Installation Experts Referral SOLAR Save Money Help the Environment Gain Power Independence Learn About the Benefits of Solar Panels

"I had solar panels installed on my roof in July. Rob from Referral solar is very experienced and professional. He gave me recommendations based on my home and helped me choose from the different payment options based on my budget."

Judy C.

"I'm using zero net electricity and that feels wonderful. I've had the system up and running for two months now, and the results are better than I expected!"

Daniel M.

"I would highly recommend Referral Solar Portland to everyone! They installed solar panels at my home about a year ago. We've had rain since the install and no leaks to report. The energy we've been generating is consistent and clean. I couldn't be more pleased."

Martin C.
