It is Sunday, August 28, 2016, two weeks before the fifteenth anniversary of 9/11. Events occurring during these two weeks will determine whether this anniversary day will usher in a world at peace or a world at war. Al Qaeda has a nuclear weapon and intends to detonate it in Oklahoma City-the heartland of America-to prove that they can strike anywhere with impunity, thus making them the legitimate leaders of Islam having the right to enforce their version of Gods messages to Muhammad from the Archangel Gabriel, the radical kill all non-believers interpretation of the meaning of the Quran. They are certain that striking the heartland in this manner will ensure that no one will ever dare to challenge their authority. Is this belief reality or abject stupidity? If al Qaedas plan is successful, will it lead instead to vengeance in the form of a nuclear holocaust in the Middle East, the demise of Islam, and genocide for Muslims?

Judy C.

"I'm using zero net electricity and that feels wonderful. I've had the system up and running for two months now, and the results are better than I expected!"

Daniel M.

"I would highly recommend Referral Solar Portland to everyone! They installed solar panels at my home about a year ago. We've had rain since the install and no leaks to report. The energy we've been generating is consistent and clean. I couldn't be more pleased."
