

The International Heliospheric Study is a program sponsored by COSPAR that exploits the unique scientific opportunities presented by the continuing operation of the four Pioneer and Voyager spacecraft which are all in or beyond the outer solar system. The heliosphere is the region of space surrounding the sun which is dominated by the solar wind and from which the local interstellar plasma and field magnetic are excluded. multispacecraft studies which form the basis of the IHS encompass the structure and dynamics of the solar wind and its interaction with the interstellar medium including those components, neutral gas and galactic cosmic rays, which are able to penetrate into the heliosphere.

Portland's Solar Equipment Installation Experts Referral SOLAR Save Money Help the Environment Gain Power Independence Learn About the Benefits of Solar Panels

"I had solar panels installed on my roof in July. Rob from Referral solar is very experienced and professional. He gave me recommendations based on my home and helped me choose from the different payment options based on my budget."

Judy C.

"I'm using zero net electricity and that feels wonderful. I've had the system up and running for two months now, and the results are better than I expected!"

Daniel M.

"I would highly recommend Referral Solar Portland to everyone! They installed solar panels at my home about a year ago. We've had rain since the install and no leaks to report. The energy we've been generating is consistent and clean. I couldn't be more pleased."

Martin C.

Referral Solar Portland is the leading company for solar energy in Portland, Oregon; Vancouver, Washington; and the greater metropolitan area. If you want to save money by utilizing solar panels and converting solar energy in Portland,

The International Heliospheric Study

give us a call at (503) 208-9997. Our professionals will guide you through every step of the process. Our dedicated team of consultants provides the best options for our residential and commercial clients. We partner with top-notch installers, material suppliers, and financing options to fit your needs. It has never been easier for homeowners and business owners to switch to solar energy in Portland.
