

The Mythology of Dogs: Canine Legend

Tracing the literary and historical legacy of over 65 different breeds, *The Mythology of Dogs* is a magnificent, breed-by-breed collection of the legend and lore surrounding man's best friend. From the Afghan to the Yorkie, fascinating stories abound, including: The Maltese who hid under the skirt of Mary Queen of Scots at her beheading; The medieval Wolfhound who bravely saved his master's child from a marauding wolf; The Afghan whose nose got wet plugging up the holes in Noah's Ark; The Newfoundland who valiantly tried to save his owner as the Titanic went down; John Steinbeck's Airedale, Omar, who learned to hustle blackjack players for their winnings; The Greyhounds of Ovid's *Metamorphosis*, who chased and killed their master after he was turned into a stag by Diana as punishment for spying on her in a state of undress.
