

Trade-Offs: An Introduction to Economic Reasoning and Social Issues

When economists wrestle with issues such as unemployment, inflation, or budget deficits, they do so by incorporating an impersonal, detached mode of reasoning. But economists also analyze issues that, to others, do not typically fall within the realm of economic reasoning, such as organ transplants, cigarette addiction, smoking in public, and product safety. Trade-Offs is an introduction to the economic approach to analyzing these controversial public policy issues. Harold Winter provides readers with the analytical tools needed to identify and understand the trade-offs associated with these topics. By considering both the costs and benefits of potential policy solutions, Winter stresses that real-world policy decision making is best served by an explicit recognition of as many trade-offs as possible. Intellectually stimulating yet accessible and entertaining, Trade-Offs will be appreciated by students of economics, public policy, health administration, political science, and law, as well as by anyone who follows current social policy debates.

Portland's Solar Equipment Installation Experts Referral SOLAR Save Money Help the Environment Gain Power Independence Learn About the Benefits of Solar Panels

"I had solar panels installed on my roof in July. Rob from Referral solar is very experienced and professional. He gave me recommendations based on my home and helped me choose from the different payment options based on my budget."

Judy C.

"I'm using zero net electricity and that feels wonderful. I've had the system up and running for two months now, and the results are better than I expected!"

Daniel M.

"I would highly recommend Referral Solar Portland to everyone! They installed solar panels at my home about a year ago. We've had rain since the install and no leaks to report. The energy we've been generating is consistent and clean. I couldn't be more pleased."

Martin C.
